It's another tequila sunrise
                          Am D7
Starin' slowly 'cross the sky, said goodbye
He was just a hired hand
                                   Am D7
Workin on the dreams he planned to try, the days go by
Every night when the sun goes down
Just another lonely boy in town
And she's out runnin' round
G
She wasn't just another woman
                               Am D7
And I couldn't keep from comin' on, it's been so long
Oh and it's a hollow feelin'
                                    D7
                              Am
When it comes down to dealin' friends, it never ends
Am
Take another shot of courage
                                 Am B
Wonder why the right words never come, you just get numb
It's another tequila sunrise
                               Am D7

This old world still looks the same, another frame
