

Change Your Mind

Earth, Wind & Fire

You said you've had it with insensitive guys
Not keepin' their promise and telling sweet lies
When he stopped callin', all of your dreams fell though

I've seen you troubled, I've seen you cry
I think I know how to treat you right
I just wanna give my sweet love to you

How can I change your mind?
I've got so much to show you if you give me the time
I could change your mind
It won't be the same, the sun's gonna shine

I'm here to tell you, we're not all the same
For what I'm guilty I'll take the blame
It's important to you to have a love that's real

I won't be unfaithful, I won't be unkind
Independently trustin' is this heart of mine
I'll keep it comin' and that is the deal

How can I change your mind?
I've got so much to show you if you give me the time
I could change your mind
It won't be the same, the sun's gonna shine

Gonna shine, I could change your mind
Gonna shine

Change your mind
I've got so much to show you if you give me the time
I could change your mind
It won't be the same, the sun's gonna shine
