

Got to Be Love

Earth, Wind & Fire

What is this energy that's speeding up my heart
Been getting the best of me, I don't know where to start
My intuition won't tell what it means
But I can feel there's something healing me
Whatever it is

Got to be love (got to be love)
Yeah, Got to be love
Got to be love (got to be love)
Yeah, Got to be love

What is this chemistry that's taking me so high
Asking for all of me without me knowing why
From Dusk to Dawn, I'm on this mystery
Wondering how this came to be
Remembering, I saw your face

My intuition won't tell what it means
But I can feel there's something healing me

Got to be love (got to be love)
Yeah, Got to be love
Got to be love (got to be love)
Yeah, Got to be love
