

Love Music

Earth, Wind & Fire

We like love music,
that's my kinda music
It's the sweetest music, and the only music for me
Talkin' bout tender lovin', and a whole lot of a-huggin'
Let me tell you something, that's the only music for me

Let's get into the mood, let's get together and groove
Turn down the light, let's make it right
Don't play no more song, about who did who wrong
Just play the music, my kind of music for me

We like love music, lots of sentimental music
Every tender heartbeat, love will sound its melody for me
Talkin' 'bout plenty lovin', and a whole lot of a-huggin'
Let me tell you something, that's the only music for me

Hey, hey, hey

As we sing love and music for your heart
Come on and sing now with us, shall we start
