

Motor

Earth, Wind & Fire

Cool down, don't heat up that way
Every time we start it up
Then she'll say
Don't take love so seriously
It's just what you see
I don't want to push her hard
Circumstances making me play the part
It's more than just a game to me

When it feels right, don't stop the motor
Baby, keep it on
Let's work it all night, don't stop the
Motor when it's running strong

Sparks fly, we create a flame
One more time, baby give your love again
Two hearts, forever be the same

My love is right for you tonight
I see the fire deep in your eyes
Got my key, you believe
Just one spark and we will come alive

[Chorus]
