I Remember

East 17

I remember back in the days
When you took my heart
And you ran away

Under pressure
'Bout those days in my life
Now I'm losing control
'Cos I'm all alone
And my heart rate
Is beating kind of slow
It's a fever
That's got me to the bone

I don't care
'Cos I dare

It's getting deeper
This pain in my heart
Can't you see
My needs?
Can't we make a fresh start?
We once were lovers
Getting it on
But now I feel so week
I've just got to be strong

My head, my head
Is hurting me now
Wham! Bam! Pow!
You didn't even say 'Ciao'
You just left me
Standing on my own two feet
Very discreet
I'm living life on the street
I've gotta get mine
You've gotta get yours
Stop and pause
No time for wars
I remember back in the days
When you took my love
And you ran away
