

# Hit By Something

Echo & the Bunnymen

Try to ride it  
Try to hide it  
Deep inside it

Try to love it  
Try to hate it  
Try to touch it  
But you can't feel

Hit by something  
Hit by something  
Hit by something  
just won't heal

Try to take it  
And try to make it  
Always break it  
When it gets too real

Try to love it  
Try to hate it  
Try to touch it  
But you can't feel

Hit by something  
Hit by something  
Hit by something  
just won't heal

Hey, when you dream tonight  
Under the stars above  
You'll need a dream tonight  
Of vodka  
Of vodka  
Of vodka

Hit by something  
Hit by something  
Hit by something  
You've forgotten how it feels

Hit by something  
Hit by something  
Hit by something  
I've forgotten how to feel  
Feel feel feel
