

Paradise

Echobelly

In all day, out all night
You and I see the sights in paradise
Very nice, take me home, do it 'til your hear aches
And then you'll know my mind

And if I stay, I'd only drive you mad
I'm not that stable, I'm not so right in a way
I find myself at odds wanting to be here
Never arrive

Love and peace, I'll at ease with naked greed
Hunger feeding, aim to please, what a teaser
Maybe I owe it to my own ways but then I know my mind
You see, I know, I've been there before

And if I stay, I'd only drive you mad
I'm not that stable, I'm not so right in a way
I find myself at odds wanting to be here
Never arrive

If I stay, I'm not the type of girl
Waiting for someone
Waiting at home there's a way out
And only time can tell

Will be here, will I begone?
In all day, out all night
You and I see the sights in paradise
