

# From Every Sphere

Ed Harcourt

Take me far away  
And make me lose control  
For now I need to pray  
Think of forgotten souls

Disappear from every sphere  
Watch them high  
Then slowly die  
Then slowly die

If you shut your eyes  
You'll float through the blackest hole  
So sure in night time sky  
You see forgotten souls

Disappear from every sphere  
Watch them high  
Then slowly die  
Then slowly die

Then slowly die  
Then slowly die  
Then slowly die
