

## Times Like This

**Edie Brickell**

Raise the window listen to the rain  
I'll be your pillow rest your head on me again  
Here in the darkness let the lightning flash our room  
& smell the rain it's in the air like sweet perfume  
Make sure the cat's in don't worry 'bout the dog  
We'll let it rain on him throw another log on the fire  
I live for times like this

Wind blows the trees & they make shadows on the wall  
Cool midnight breeze feel it coming through the hall  
Earthquakin' thunder shakes the roof over our heads  
Sleep taking wonder keeps us turnin' in our bed  
We've got each other & a soft blanket to share  
The rainy weather washed away all of our cares  
I live for times like this  
I live for times like this
