

# In Our Cathedral

Eels

We are safe  
We are free  
Always were and will be

Your heart's been battered  
Your spirits broken  
But there's a place where your heart can still be open  
In our cathedral

Was a time, you forget  
You were losing every bet  
Your hope was shattered  
Your trust betrayed  
But you found a place where you don't need to be afraid  
In our cathedral

And I hurt, but I'll heal  
They can't tell us how to feel  
The doors is locked now  
All pain and fear is on the other side  
Nothing can hurt us here  
In our cathedral

We are safe  
We are free  
Always were and will be

Your dreams are broken  
Your innocence lost  
But there's a line  
That can't be crossed  
In our cathedral
