

I know your works  
You are neither cold nor hot  
So because you are lukewarm, I will spew you out of my mouth  
You can build your filthy world without me

I will spit  
Spit you out

I kill just to justify  
Before I take  
Yes I kill just to feel so alive  
Yes I feel so alive

I could be the reason you can't fight off your demons  
Cause it's just so fucking chemical  
Mind has got you going  
The needle's got you showin' that you're just so fucking chemical

Spit you out  
I will spit you out  
Spit you out  
I will spit you out

I will leave you here to die  
Your soul in chains  
Yes I kill just to feel so alive  
Yes I feel so alive

Now I've got you thinking the shit has got you twisted  
Cause it's just so fucking chemical  
High is getting low and sweats are getting cold  
Because you're just so fucking chemical

Spit you out  
I will spit you out  
Spit you out  
I will spit you out

I am the one you see  
That brings you to your knees  
I am the one to behold  
I am the fear inside  
Now look into my eyes  
It's time to lose your soul

You let it all just slip away  
You didn't know the price to pay

This is my war, this is the war I wage  
This is my war, this is the war I wage

I will spit you out  
I will spit you out  
Spit you out  
I will spit you out
