

# Blue Highway

Eilen Jewell

Endless nights of one eye open and one ear to the ground  
You promised me eternity but you never even come around  
Well all my worries came flooding in the day you said hello  
If you care to know what I think of that, honey step outside yo  
ur door

You'll see me roll down this blue highway  
I'm gonna roll, roll, roll, roll  
I don't need you to help me lose my way  
I'm gonna roll, roll, roll, roll

One fine day I'm gonna meet my God and tell him how you made me  
feel  
But the only thing I can do down here is put miles behind these  
wheels

You'll see me roll down this blue highway  
I'm gonna roll, roll, roll, roll  
I don't need you to help me lose my way  
I'm gonna roll, roll, roll, roll  
I'm gonna roll, roll, roll, roll
