

Wicked Child

Eisley

This life it's just a place in my mind
Through the window I find I can stop time
'Cause dreams are crawling all over my head,
and you have those beautiful eyes, but I am a wicked child

Now with my head in the clouds
I'll sit here and burn, I will burn

You're Poseidon, and I'm dyin'
with my teeth on your smile
I walk my feet on you mile with my eyes,
I'll follow you up the trees
I'll be the birds and the bees,
from my prison that I can't leave

Now with my head in the clouds
I'll sit here and burn, I will burn
Save me, I'm not crazy,
I just fell through the ground
and now things are upside down

Wait for a minute, just don't toss me away
I'll be down in the trees, just begging you please
My hands in my pockets, my feet growing long
in the way the vine grows strong

Hold me high
Hold me high tonight
I won't lie to you
Don't lie to me

Now with my head in the clouds
I'll sit here and burn, I will burn
Save me, I'm not crazy,
I just fell through the ground
and now things are upside down
