

Two for Joy

Electrelane

I've no sorrow
If I'm glad, oh! let me show it

Did you see those birds take flight?
She opened her hand and they flew across the room

How the morning skies are high
I watch them as they turn from black to blue
I was dreaming of boats last night
Boats in the desert and anchors and bridges and you...

Oh, let's get in the water
Oh, let's get in the water
They said "no, don't go near the water"
You said "oh, let's get in the water"
You said "oh oh oh..."
