

6:15 on the clock watch  
Keep on looking at it cause I know the day will soon be out  
Been the same way up to now

Try to be smooth but I'm still not  
Everything is sentimental since the day you came around  
Turned the page and started out

You've suffered every injury  
Setbacks have taken all your energy  
I know it's been a while you're hanging on

But every night I end up at your door  
We talk for hours and I'm sure  
(24/7 on my mind)  
I never really know if you're on board  
But you should know that I'm yours  
(In my head, I'm singing all the time)

24-7  
24-7, my mind's on you  
24-7  
24-7 for you  
24-7, my mind's on you

Never thought I wanted to be married  
And I know I probably won't  
But you've shown me there's a hope

Every other one is ordinary  
On your own was all you know  
Only close when we're alone

You say you're never satisfied  
Looking for something that you'll never mind  
I hope that I'm the one that'll prove you wrong

'Cause every night I end up at your door  
We talk for hours and I'm sure  
(24/7 on my mind)  
I never really know if you're on board  
But you should know that I'm sure  
(In my head, I'm singing all the time)

24-7  
24-7, my mind's on you  
24-7  
24-7 for you  
24-7, my mind's on you

Big up to your maker  
Got me feeling' glad that me made ya  
You know (24-7 on my mind)  
I'm like, try not to forsake it  
'Cause whatever this is, I'll take it  
Let go (In my head, I'm singing all the time)

24-7 for you  
(In my mind)  
24-7, my mind's on you  
(I don't know)  
24-7, my mind's on you

Every night I end up at your door  
We talk for hours and I'm sure  
(24-7, my mind's on you)  
I never really know if you're on board  
But you should know that I'm sure  
(24-7, my mind's on you)
