

# Play With Me

Electric Guest

Why you gotta play with me?  
You know you're wrong  
Every time I call your name  
I know you're gone

Why you gotta play with me?  
You know you're wrong  
Every time I come your way  
I know you're gone

I can feel it  
Every time you look my way  
I can feel it  
Guess I need a lifestyle change  
'Cause you told me once  
That you only can give so much  
Shoulda known our love  
Was hopeless

Now I'm out on a limb, I see  
There's no fruit on the empty tree  
Keep on wishing, but it won't be  
I know it

Why you gotta play with me?  
You know you're wrong  
Every time I call your name  
I know you're gone

Why you gotta play with me?  
You know you're wrong  
Every time I come your way  
I know you're gone

Yeah...  
Oh...  
Oh...

Now I know it  
(Well how do you feel?)  
Like there's nothing I can do  
Caught up in a game where I'm the fool  
Still, I'd rather play until I lose  
Try to go out but it don't compare  
Talk too much, now my friends don't care  
Just another toy for you to play with  
'Cause you know I'm always there

Why you gotta play with me?  
You know you're wrong  
Every time I call your name  
I know you're gone

Why you gotta play with me?  
You know you're wrong  
Every time I come your way  
I know you're gone

In the dead of summer  
I just need something  
To distract me from the way that it was  
Used to be easy  
Had your attention freely  
Now you play with me till you've had enough

Why you gotta play with me?  
You know you're wrong  
Every time I call your name  
You're always gone

Why you gotta play with me?  
You know you're wrong  
Every time I come your way  
You're always gone

Why you gotta play with me?  
You know you're wrong  
Every time I come your way  
You're always gone

You're always gone  
I'm always lost  
In the forcefield  
That you put on me

I'm like, sheesh, sheesh  
Call on the police (brrr)  
I'm like, sheesh, sheesh  
Call on the police
