

Four Little Diamonds

Electric Light Orchestra

Is this on?
OK, after four!
Four!

I used to think she was the greatest thing
I really can't give her a diamond ring
She said she'd rather die than ever leave me
Well, I never saw her face since then
And if the law don't get her, then I will
Four little diamonds

She must be somewhere on the open road
She always said she was the lonely one
She gets you down with her tales of woe
She took me for everything
And if the law don't get her, then I will
Four little diamonds

Ooh, ooh
Four little diamonds

I looked around, I climbed up high into the dawn
But she was gone into the night
I thought about the things she said
And all the things we'd done
But where could she run
There's just no answer to give

I keep a-wonderin' 'bout her day and night
She probably thinks I was a fool, she's right
She don't know it
But I'm gonna keep on searchin for that woman
I'm gonna search everywhere
And if the law don't get her, then I will
Four little diamonds

Ooh, ooh
Four little diamonds

I looked around, I climbed up high into the dawn
But she was gone into the night
I thought about the things she said
And all the things we'd done
But she ran away
There's just to answer to give

I still hear callin' out to me
I still listen for her endlessly
But it never even crossed my mind
she was a cheater
I gotta find out where she hides
'Cause if the law don't get her, then I will
Four little diamonds

Said if the law don't get her, then I will
Four little diamonds

Said if the law don't get her, then I will
Four little diamonds
Four little diamonds
Four little diamonds
Four little diamonds
Four little diamonds
Four little diamonds
