

Save Me

Elegant Machinery

Though my face is straight
It still relates the fact, that I
Am lost in this peculiar dream
Your expressions make my scene

You entertain me
Every night and day, my life
Is built upon your secret smiles
Iâ€™m speechless when you

Save me save me from myself
Sweet inspiration changed my wretched thoughts
Save me save me from myself
Sweet motivation in the words you brought

Transparent words
Enfolds my disbelief, your voice
Illuminates my doubtfullness
Youâ€™ve changed me more or less

It feels so good to hear you
Spell my name, so soft
Are all those words you aim at me
Apparently you

Save me save me from myself
Sweet inspiration changed my wretched thoughts
Save me save me from myself
Sweet motivation in the words you brought
