I Call The Tune

Eli Young Band

I see you strutting in here girl with one thing on your mind Your gonna try to get the best of any man you find Girl keep on walking, walking on past me I've been around the block a time, I call them like I see

I'm not accusing you of being insincere Before you say another word let me make it clear

You wanna go, lets go But we gotta do it my way Hold on, step back Hear everything that I say If you wanna love me, you've gotta give me room Baby we can dance but I call the tune

I've been down that road before of making compromise Fallen to the power held behind a lover's eyes Now that I'm much older, I've gotta take a stand No amount of beauty's gonna change the way I am

It's not too soon and you may think I'm jumping the gun Baby you can play for keeps when you don't need anyone

You wanna go, lets go But we gotta do it my way Hold on, step back Hear everything that I say If you wanna love me, you've gotta give me room Baby we can dance but I call the tune

You wanna go, lets go But we gotta do it my way Hold on, step back Hear everything that I say If you wanna love me, you've gotta give me room
