

# Love Me Like You

Ella Eyre

Nobody...

I guess I'll love you forever  
I guess that's all my fault  
But I can't change the weather  
And so I can't be what you want

And you say that you're sorry  
But you don't have a clue  
That it does nothing for me

Now I don't wanna feel like I do  
Forgotten how to be without you  
I never thought it's something I'd lose  
'Cause nobody love me like you

I don't know how to get out this place  
I can't seem to get away from your face  
And seeing now how much you've changed  
And nobody love me like you

Nobody love me (Nobody love me)  
Nobody love me like you  
Nobody... nobody love me... nobody nobody  
Nobody love me like you

Well it can never be easy  
They say that it takes time  
To forget you don't need me  
Now you're probably just fine

When you said that you loved me  
You don't know what you did  
But you took something from me

Now I don't wanna feel like I do  
Forgotten how to be without you  
I never thought it's something I'd lose  
'Cause nobody love me like you

I don't know how to get out this place  
I can't seem to get away from your face  
And seeing now how much you've changed  
And nobody love me like you

Nobody love me (Nobody love me)  
Nobody love me like you  
Nobody... nobody love me... nobody nobody  
Nobody love me like you

Now I don't wanna feel like I do  
Forgotten how to be without you  
I never thought it's something I'd lose  
'Cause nobody love me like you

I don't know how to get out this place  
I can't seem to get away from your face

No matter how much you've changed  
And nobody love me like you
