

## Switch Sider

Ella Mai

Mama said never love a nigga more than he love me  
See my daddy said the same thing, and he an OG  
Your love is all I can think of  
I don't want it, boy I need it now  
My heart is telling me I'm crazy  
Cause I shouldn't be sticking around

Everybody know in the town  
I'm the one that's holding you down  
You the one that's hoeing around  
Everybody know, everybody know in the town  
But I'm the one that's still here now  
Still here  
Still loving my baby like he ain't did nuthin  
But that's still my baby, yeah he still the one

Oh baby, I'm the definition of a rider  
That's my baby  
I ain't gon' leave 'cause I ain't a switch sider  
No I ain't, no I won't  
You make me want to leave you every day, but I don't  
I'm still riding  
Cause I ain't a switch sider  
No, no I ain't a switch sider  
No, no I ain't a switch sider

Mama said never love a nigga more than he love me  
See my daddy said the same thing, and he an OG  
We on a love rollercoaster  
But I can't help myself, I need it now, now  
Does this have something to do with her?  
Is she the reason that you're not around?

Everybody know in the town  
I'm the one that's holding you down  
You the one that's hoeing around  
Everybody know, everybody know in the town  
But I'm the one that's still here now  
Still here  
Still loving my baby like he ain't did nuthin  
But that's still my baby, yeah he still the one

Oh baby, I'm the definition of a rider  
That's my baby  
I ain't gon' leave 'cause I ain't a switch sider  
No I ain't, no I won't  
You make me want to leave you every day, but I don't  
I'm still riding  
Cause I ain't a switch sider  
No, no I ain't a switch sider  
No, no I ain't a switch sider

Mama said never love a nigga more than he love me  
See my daddy said the same thing, and he an OG

Oh baby, I'm the definition of a rider  
That's my baby

I ain't gon' leave 'cause I ain't a switch sider  
No I ain't, no I won't

It's like, every time I try and confess my love for you  
It's just... Hello?  
See this is what I'm talking about  
You never ever listen to what I'm saying  
I know you went out last night  
And I know there's someone else  
I might as well just...  
My friends warned me about you, I mean  
I should've listened
