

## Be Encouraged

Elle Varner

I been where you are, so low  
Wondered why I'm here, for real, though  
Couldn't find myself, you in there?  
I started to fade into the air  
But somethin' in my spirit wouldn't let me  
I heard a little birdie from above  
She told me, "If you need me, you can hold me"  
Just when I needed the love, she said

Every time it rains, every time you fall  
Every time you're all alone and got no one to call  
Remember what's inside your heart  
We gotta find a little spark  
But some of them, especially you  
Have them wherever you are  
Every time it rains  
Oh-oh

Sometimes we get so drowned in the doubts  
Even the sunshine is chased by gray clouds  
Summer never comes, it seems like  
Why does every day feel like a night?  
I heard that it was all about perspective  
It isn't what it is, it's what you make  
And whether the glass is full or empty  
It's whatever you save, baby

Every time it rains, every time you fall  
Every time you're all alone and got no one to call  
Remember what's inside your heart  
We gotta find a little spark  
But some of them, especially you  
Have them wherever you are  
Every time it rains  
Oh-oh

Said be encouraged, baby  
Be encouraged, baby  
Be encouraged, be encouraged, be encouraged, baby  
Be encouraged, be encouraged, be encouraged, baby  
Be encouraged, be encouraged, be encouraged, baby  
Oh-oh
