

Number One Song

Elle Varner

Tick-tock and my brain won't stop
It's like, twenty-four-seven on my mantel clock
When I'm walkin' the street, when I'm at my job
When I'm in the gym, when I'm in my car
While I'm out with my friends, when I take out the trash
When I'm makin' my bread, is it takin' a class?
When I'm watchin' a show on a TV screen
There's always somethin' there to remind me

And though I try to keep it secret
Clearly everyone can see that

I probably think about you all day long
Stuck in my head like a number-one song
Stuck in my dreams, it's a nightmare sometimes
I'll probably think of you the rest of my life
I think about you when the sun goes down
Over again like a merry-go-round
Stuck in my heart like a knife through my chest
Gonna think of you 'til you say yes

'Til you say yes, 'til you say yes
I'll probably think of you

All night, 'til the break of dawn
First I stare at the floor, then I stare at my phone
Then I check, double-check if you gave me a call
When I know good and well that you haven't at all
And I don't care if I'm losin' my mind
The way I see, I got nothin' but time
I got nothin' to lose but all of my pride
I'm hidin' the pain in the back of my smile

Though I try to keep it secret
Clearly everyone can see that

I probably think about you all day long
Stuck in my head like a number-one song
Stuck in my dreams, it's a nightmare sometimes
I'll probably think of you the rest of my life
I think about you when the sun goes down
Over again like a merry-go-round
Stuck in my heart like a knife through my chest
Gonna think of you 'til you say yes

'Til you say yes, 'til you say yes, whoa
I'll probably think of you, mm

Yeah, I don't wanna miss this chance
To put my love in your hands
I just need a moonlit plan
For you to know what I mean
'Cause you don't ever see my signs
Always read between the lines
Got me goin' outta my mind

Whoa-oh

(I think about you, ooh, I think about you)
Whoa, whoa, whoa, ooh, number one song
(I think about you, ooh, I think about you)
Ooh, I'm goin' outta my mind
(I think about you, ooh, I think about you)
I'm thinkin' about you
(I think about you, ooh, I think about you)
Think about you
(I think about you, ooh, I think about you)
I'm thinkin' about you
(I think about you, ooh, I think about you)
Like a number one song
(I think about you, ooh, I think about you)

I probably think about you all day long
Stuck in my head like a number-one song
Stuck in my dreams, it's a nightmare sometimes (Sometimes)
I'll probably think of you the rest of my life
I think about you when the sun goes down (Goes down)
Over again like a merry-go-round
Stuck in my heart like a knife through my chest (My chest)
Gonna think of you 'til you say yes

'Til you say yes, 'til you say yes
Whoa-oh, oh

I think about, I think about
(I think about you, ooh, I think about you)
(I think about you, ooh, I think about you)
Yeah, baby, I think about you
(I think about you, ooh, I think about you)
(I think about you, ooh, I think about you)
(I think about you, ooh, I think about you)
(I think about you, ooh, I think about you)
(I think about you, ooh, I think about you)
(I think about you, ooh, I think about you)
