

Let's Turn This Back Around

Elliot Minor

If we walk right out of our heads
Turn our backs on everything we said
I cannot forget

If we stay do we surrender
Lets kill some time just getting better
I wanna open today

Like the Sand Im covering my tracks
Im falling I dont understand
Just like the sand Im sinking through the cracks
Im breathing in the air

I think we will be all right
If we turn this back around
I would hate to see the hourglass run out

Come with me
Let drain the ocean
Lets fill the sea with revolution
Oh, were running out of time, out of time

If we stay do we surrender
Lets kill some time just getting better
You alone could take us away

And I think we will be all right
If we turn this back around
I would hate to see the hourglass run out

And when we realize that we are all out of our minds
Its just our right there is no need to spiral down

I think we will be all right
If we turn this back around
I would hate to see the hourglass run out

And when we realize that we are all out of our minds
I would hate for this
For this to all be over now
