Well, let me tell you, girl Every since the day that we met I never have the second guess Of a single regret

Now about the way that you're making me feel Well, alright
I see you move, see your body groove
No, I just got cold

Baby, what you're doing to me My body is burning in the third degree Well, alright

You make me feel like I'm gonna lose it
You make me feel like I'm gonna lose it
You make me feel like I'm gonna lose all of my self control
Well, alright

I'm tired of wasting time Going now and chasing that Your body so fine

Got one question on my mind I wanna know how it feels to be mine Yes, I do

I gotta tell you, baby
I've been around the world
Seeing a lot of different girls
Ain't nobody quite like you

Girl, I think I always knew
Ohh, I just can't confront the truth
Ohh, yaa

You make me feel like I'm gonna lose it
You make me feel like I'm gonna lose it
You make me feel like I'm gonna lose all of my self control
Well, alright
