

Step Down

Elliphant

I'm home, home alone
I call, call again you not answering
And I know
You couldn't, you wouldn't dare
To tell me I win this, you swear
You busy but I know you don't care
So don't cry man, 'cause I just wanted a friend tonight

You're hot, I'm cold that's why I
Thought we could make a cloud
But you can't get no higher
Fuck it, you're not my type at all

(x2)
Why don't you just step down?
Why don't you just step down from your high?
Was this from where you
Can't see a thing you miss
I don't so much, mate

You play on your flute all day,
Never heard a word
Dripping from your mouth
You got shit to say, pushed me
Well, I don't think
Just I own my emotion
Shit happens,
and I just still want a friend tonight

You're hot, I'm cold that's why I
Thought we could make a cloud run
But you can't get no higher
Fuck it, you're not my type at all

(x2)
Why don't you just step down? (why don't you just step down?)
Why don't you just step down from your high?
Was this from where you
Can't see a thing you miss
I don't so much mate

Say what
Jump down
Hey
So jump down

You're hot, I'm cold that why I (why don't you just step down?)
Thought we could make a cloud (why don't you just step down?)
But you can't get no higher (you step down)
Fuck it, you're not my type at all (fuck it)
Why don't you just step down? (just step down)
Why don't you just step down from your high? (from your high)
Was this from where you
Can't see a thing you miss
I don't so much, mate
Why don't you just step down? (step down)
Why don't you just step down from your high? (step down from your high)

Was this from where you
Can't see a thing you miss
I don't so much, mate
