

# I'll Never Know

Elvis Presley

How many stars are in the sky  
I'll never know  
What fire lights a firefly  
I'll never know

What happens to this heart of mine  
Each time you hold my hand  
Sometimes the things we love the most  
We never understand

I never thought these eyes would see  
An angel's glow  
What miracle brought you to me  
I'll never know

What happens to this heart of mine  
Each time you hold my hand  
Sometimes the things we love the most  
We never understand

I never thought these eyes would see  
An angel's glow  
What miracle brought you to me  
I'll never know

What miracle brought you to me  
I'll never know
