

## Tender Feeling

Elvis Presley

I can't conceal the tender feeling  
Now that you are close to me  
I look at you with tender feeling  
And can't help kiss you tenderly

I offer you a true devotion  
All life through my love I vow  
For this is real, this sweet emotion  
This tender feeling I have now

Somehow I knew from the moment our lips first met  
You'd be the girl I could never forget  
No other love could be appealing  
I loved you right from the start  
And with each kiss I'll keep revealing  
The tender feeling in my heart
