

## City of Stars

Elyar Fox

Pulled up in a black Lex, yeah  
And she climbed out, gave keys to the valet, yeah  
Made her way to the staircase with her girlfriends  
I feel her brown eyes on me

Just Coke with the ice, yeah, Coke with ice, yeah, Coke with the ice, yeah  
She's straight for the night, yeah, straight for the night, yeah, straight for the night, yeah  
And she doesn't know the high she needs to let go

She came from the city of the stars, yeah  
Where they all look good cause they all get what they want  
She came from the city of the stars, yeah  
And she never gon leave cause the city's all she knows, yeah

Cut her teeth in the scene, yeah  
And her pearl whites take a piece out of me  
Gotta focus on the dream, oh yeah  
But how can I, oh how can I, oh-nah

Just Coke with the ice, yeah, Coke with ice, yeah, Coke with the ice, yeah  
She's straight for the night, yeah, straight for the night, yeah, straight for the night, yeah  
And she doesn't know the high she needs to let go

She came from the city of the stars, yeah  
Where they all look good cause they all get what they want  
She came from the city of the stars, yeah  
And she never gon leave cause the city's all she knows, yeah

And she never gon leave cause the city's all she knows, yeah  
And she never gon leave cause the city's all she knows, yeah

And her heart is a perfect shade of green, shade of green  
No more dreams out here  
And she never gon see cause the city's all she knows

She came from the city of the stars, yeah  
Where they all look good cause they all get what they want  
She came from the city of the stars, yeah  
And she never gon leave cause the city's all she knows, yeah

And she never gon leave cause the city's all she knows, yeah  
And she never gon leave cause the city's all she knows, yeah
