

Channeling

Elysian Fields

Are you channeling me
Are you channeling me
Are you channeling me my love
Are you channeling me
Are you channeling me
Are you channeling me my love
Over and above
Over and above
Over and above you go
Over and above
Over and above
Over and above you go
All the particles in slow motion
Like snow falling onto the ocean
Melting on the tip of your tongue
So just taste it
Are you channeling me
Are you channeling me
Are you channeling me my love
Are you channeling me
Are you channeling me
Are you channeling me my love
Over and above
Over and above
Over and above you go

Over and above
Over and above
Over and above you go
The west wind's blowing you sideways
Close your eyes for the crossfade
The signals in your mind
Take you further
Are you channeling me
Are you channeling me
Are you channeling me my love
Are you channeling me
Are you channeling me
Are you channeling me my love
Over and above
Over and above
Over and above you go
Over and above
Over and above
Over and above you go
Over and above
Over and above
Over and above you go
Over and above
Over and above
Over and above you go
Over and above
Over and above
Over and above you go
