Set the Grass On Fire

Elysian Fields

I'm gonna tell your fortune
I'm gonna raise the dead
I'm gonna make a motion
I'm gonna screw your head
I'm gonna whip that fountain
I'm gonna break you free
I'm gonna scale that mountain
I'm gonna make you me
And we'll set the grass on fire
As our rocket ship shoots to the sky
Leave the humans far behind us
Humans never learn to fly
I see you've quite a lifeline
I'll try it on for size
I'm gonna build a pipeline
Directly through your eyes
You ain't gonna get off easy
We'll slip through space and time
Cuz you're the only one that sees me
I'm yours and you are mine
And we'll set the grass on fire
As our rocket ship shoots to the sky
Leave the humans far behind us
Humans never learn to fly
And we'll set the grass on fire
As our rocket ship shoots to the sky
Leave the humans far behind us
Humans never learn to fly
