

Help You Out

Emarosa

I know
Damn it I could let go
But it isn't right
How it feels to love you all the time, yeah
But I guess that's what we're used to

I know
Show me it's the last time
Not another lie
Fast and loose, you're not the lonely type
But I guess that's what we're used to

All of my time, for you
All of my lines are used

Oh, I know you're really hurtin' a lot right now
Let me help you
Help you out
Don't you think I'm feeling something too
When you're walking on a wire
And everything's on fire, fire

I know
You love it, leave it, let go
To another life
How did we get through the hardest times? Yeah
But I guess that's what we're used to

All of my time, for you
All of my lines are used

Oh, I know you're really hurtin' a lot right now
Let me help you
Help you out
Don't you think I'm feeling something, too
When you're walking on a wire
And everything's on fire, fire

Oh, I know you're really hurtin' a lot right now
Let me help you
Help you out
Don't you think I'm feeling something, too
When you're walking on a wire
And everything's on fire, fire

Take my love, my hate
Save the family then save face
You can take my place
Live my ways
But I know you
What we've been through
I said I do, I meant it, didn't you?

I know you're really hurtin' a lot right now
Let me help you
Help you out
Don't you think I'm feeling something, too

When you're walking on a wire
And everything's on fire, fire

Oh, I know you're really hurtin' a lot right now
Let me help you
Help you out
Don't you think I see something in you
When you're walking on a wire
And everything's on fire, fire

(I know you're really hurtin' a lot right now)
