

Enough

Embrace

My god, he works in mysterious ways
You don't feel the guilt, then you don't have to pay
I'm not afraid, I'm not your slave
You'll be amazed that I pick your plays

There is a line, you crossed it runnin'
You've had your time, I've just had enough
Now I've just had enough
You draw your lines, I'll cross them runnin'
You've had your time, I've just had enough

You say that I'm generations behind
All that I am you've got locked up inside
Give me a gun, give me a sign
I'll head for the front and I'll feel justified

You draw your lines, I'll cross them runnin'
You've had your time, I've just had enough

What in the world are you gonna do?
What in the world are you gonna say
That will make it happen for you
And make gold as you'd walk away, away, away, away
I've just had enough

Now I've just had enough
Now I've just had enough
Now I've just had enough
Now I've just had enough
