

Milk and Honey

Embrace

I've had better days
Days when the milk and the honey
It poured into me, yeah

And I've had better times
When I was up on my feet
And not down on my knees, yeah

Now I want me and my
To go where there's milk and there's honey
And take what we need, yeah

Across that finish line
We'll see that we're running for nothing with
No one to beat, yeah

And every day I feel the same thing
That you and I know we'll find our way again
We are all on the same road if you understand
Let's do what we can

And I've had better times
Times when the milk and the honey
It poured like a stream, yeah

And right before my eyes
People were giving into need
And not into greed, yeah

And every day I feel the same thing
That you and I, we will find our way again
We are all on the same road if you understand
Let's do what we can

That's why I say a prayer for you now
I'll say another prayer for you and me
And though I know we'll never hear the answer
I'll say another prayer for you and me

And so I'll say another prayer for you now
I'll say another prayer for you and me
And though I know we'll never hear the answer
I'll say another prayer for you and me, and me

And every day I feel the same thing
That you and I know we'll see those days again
We are all on the same road if you understand
Let's do what we can

And I've had better days
Days when the milk and the honey
It poured into me, yeah, yeah
