

# We Fit Together

Emerson Drive

Oh, I wake up at Five, and work by Six AM  
She looks at me and smiles  
Pulls the covers back over her head  
Were like two peas in a different pod, if you know what i mean

I like my coffee black, she only drinks green tea  
She likes to read a book, but id rather watch t.v  
To look at her you'd never know, that we were meant to be

Like a lid on a jar, Like a tip on a bar  
Shes like a puzzle, I'm a missing piece  
That fits in the middle makes a picture complete  
A lock and a key, or a boat and a breeze  
Like some jelly in the center of a doughnut just tastes better  
We Fit Together

And everybody knows, that love just don't make sense  
and the way carry on, makes people scratch their heads  
But that's okay its how we roll, its just the way it is

Like a lid on a jar, Like a tip on a bar  
Shes like a puzzle I'm a missing piece  
That fits in the middle, makes a picture complete  
A lock and a key, or a boat and a breeze  
Like some jelly in the center of a doughnut just tastes better  
We Fit Together

There ain't no tearing us apart, We Fit Together  
Like the air in my tire, or the beat of my heart

Like a lid on jar, Like a tip on a bar  
Shes like a puzzle I'm a missing piece  
That fits in the middle, makes a picture complete  
A lock and a key, or a boat and a breeze  
Like some jelly in the center of a doughnut just tastes better  
We Fit Together

whoa whoa yeah We Fit Together  
whoa Like a lid on a jar, Like a tip on a bar  
We Fit Together.
