

# Big Jumps

Emiliana Torrini

I walked all morning to life my heart  
'Cause the world keep dancing with  
The paper man  
I love you never talk in dreams  
The now is here your happiness is real

Oh make some big jumps, big jumps  
You afraid to break some bones?  
Come on do some big jumps, big jumps  
Life is yours alone  
You hold your head up, your head up high  
Like you think I do  
doop doodoop doodoop doo doo doop

Sometimes I feel so confused  
I'm under the illusion that I  
Have to choose  
I love you always know the way  
The way back home always is the same

Oh make some big jumps, big jumps  
You afraid to break some bones?  
Come on make some big jumps, big jumps  
Life is yours alone  
You hold your head up, your head up high  
Like you think I do  
doop doodoop doodoop doo doo doop

Tick tock this clockwork will stop  
You're the key for winding up my heart  
Brick brack if you don't wind me up  
The sky will lie upon me like a  
Pass out drunk  
Without you I would never rise again  
Without you I would never rise

Hey there sunshine lift my heart  
I know life is long but it goes so fast  
I love you never feeling old  
You never bought the rubbish that they sold

Oh make some big jumps, big jumps  
You afraid to break some bones?  
Come on make some big jumps, big jumps  
Life is yours alone  
You hold your head up, your head up high  
Like you think I do  
doop doodoop doodoop doo doo doop

Oh do some big jumps, big jumps  
You afraid to break some bones?  
Come on make some big jumps, big jumps  
Life is yours alone  
You hold your head up, your head up high  
Like you think I do  
doop doodoop doodoop doo doo doop

doop doodoop doodoop doo doo doop
