

Fireheads

Emiliana Torrini

Somebody's got a long way to go
You're not sitting by the phone no more
You're gonna throw it away
Crash it on a rock yeah
So you can live your life
Are we going crazy?

It's not fair to say we wasted time
In my view we just used it all up
What hurts you hurts me too
I find it hard to make right

I know I've been a pain lately
That I failed in every test
Oh I did wrong

Oh man what are we seeing here
Life's changed oh
We share a similar firehead oh
There's nowhere to go

Laws change n' things are braved
Somewhere we got lost and can't be saved
There's hard wind blowing down our house
Once that's gone mmm it can't be found

I thought you'd keep me warm
But I was shown
I was wrong

Oh man what are we seeing here
Things changed oh
We share a similar firehead oh
There's nowhere to go

N' oh man what are we seeing here
Life's changed oh
We Share the same firehead
There's nowhere to go
