

Good Friend

Emily King

If there's something I need, I don't already have
I know I'll get it from a good friend,
If there's something I need, I don't already have
I know I'll get it from a good friend,
If there's something I need, I don't already have
I know I'll get it from a good friend,
If there's something I need, I don't already have
I know I'll get it from a good friend,
If there's something I need, I don't already have
I know I'll get it from a good friend,
If there's something I need, I don't already have
I know I'll get it from a good friend,
If there's something I need, I don't already have
I know I'll get it from a good friend,
I know there is a mountain
I know there is a climb
I thought about the danger
The darkness of the night
But soon as I get weary
Soon as I close my eyes
You're there to lift the burden from my mind
If there's something I need, I don't already have
I know I'll get it from a good friend,
If there's something I need, I don't already have
I know I'll get it from a good friend,
If there's something I need, I don't already have
I know I'll get it from a good friend,
If there's something I need, I don't already have
I know I'll get it from a good friend,
I know I've been impatient
I know I've been upset
I know I've felt the pressure
Lookin' for happiness
But soon as I get weary
Soon as I lose my head
You're there to lift my burden once again
If there's something I need, I don't already have
I know I'll get it from a good friend,
If there's something I need, I don't already have
I know I'll get it from a good friend,
If there's something I need, I don't already have
I know I'll get it from a good friend,
If there's something I need, I don't already have
I know I'll get it from a good friend,
If there's something I need, I don't already have
I know I'll get it from a good friend,
If there's something I need, I don't already have
I know I'll get it from a good friend,
If there's something I need, I don't already have
I know I'll get it from a good friend,
If there's something I need, I don't already have
I know I'll get it from a good friend,
If there's something I need, I don't already have
I know I'll get it from a good friend
