

# Stay Wide Awake

Eminem

Yeah, yeah,  
Follow me, follow me  
Come with me to the dark side of the force  
No man would boldly go to this place  
The devil only knows of this world so dark  
And oh so cold, it's oh so cold, oh so cold oh!

Soon as my flow starts  
I compose art like the ghost of Mozart  
Even though they all say that they're real  
I know that most aren't  
Boy you think you're clever don't ya  
Girl you think you're so smart  
Come with me to another side in a world so cold and so dark  
Stay wide awake

A world so dark  
A world so cold  
A world where only some will go  
But not return, when will they learn  
Were do they go God only knows  
Stay wide awake

Fe fi fo fum  
I think I smell the scent of a placenta  
I enter Central Park it's dark it's winter in December  
I see my target with my car and park it and approach a tender  
Young girl by the name of Brenda and I pretend to befriend her  
Sit down beside her like a spider hi there girl you mighta  
Heard of me before see whore your the kinda girl that I'd  
Assault and rape and figure why not try to make your pussy wida  
Fuck you with an umbrella then open it up while the shit's inside ya  
I'm the kind of guy that's mild but I mite flip and get a little bit wilder  
Impregnate a lesbian girl now lets see ya have triplets and I'll  
Disintegrate them babies as soon as that out her with formalda-  
Hide and cyanide girl you can try and hide you can try to scream louder  
No need for no gun powder that only takes all the fun outta  
Murderin' I'd rather go vrim! vrim! and now you see just how the  
Fuck I do just what I do when I cut right through your scalp, uh  
Shit wait a minute I mean skull my knife seems dull  
Pull another one out, uh!

Soon as my flow starts  
I compose art like the ghost of Mozart  
Even though they all say that they're real  
I know that most aren't  
Boy you think you're clever don't ya  
Girl you think you're so smart  
Come with me to another side in a world so cold and so dark  
Stay wide awake

A world so dark  
A world so cold  
A world where only some will go  
But not return, when will they learn  
Were do they go, god only knows  
Stay wide awake

So dark and so cold my friends don't know this other side of me  
There's a monster inside of me it's quite ugly and it frightens me  
But they can't see what I can see there's a vacancy in my tummy  
It's makin' me play hide n' seek like Jason I'm so hungry  
She's naked see no privacy but I can see she wants me  
So patient see I try to be but Gee why does she taunt me  
Pulls the drapes and she goes right to sleep  
And I creep right through the front see  
So blatantly but silently cuz I know that she's sound asleep  
Who's wakin' me so violently and why is he on top of me  
He's rapin' me she try's to scream somebody please get him off me  
He's tapin' me he's biting me he's laughing likes it's funny  
She's scrapin' me she's fightin' me she's scratching like some dumb freak  
Escapin' me no dice ya see I might just be Ted Bundy  
Or Satan gee what a site to see I'm dancing in my red panties  
I'm crazy but it's alright with me man life can be so empty  
Stay away from cuz I'm dancing to quite a different drum beat

Soon as my flow starts  
I compose art like the ghost of Mozart  
Even though they all say that they're real  
I know that most aren't  
Boy you think you're clever don't ya  
Girl you think you're so smart  
Come with me to another side in a world so cold and so dark  
Stay wide awake

A world so dark  
A world so cold  
A world where only some will go  
But not return, when will they learn  
Were do they go, God only knows  
Stay wide awake

Better try to stay wide awake or you might be found dead by the lake  
Soon as you lay me down to sleep bitch your soul I'm a try to take  
Pray for light today right away why do they try to fight today  
I must make them pay twice as much might as well put the knife away  
Now I use power tools how 'bout now are you in the shower  
Scour you for six hours till outage your power outlets  
How did ya figure out I was down in your basement now ya  
Must of just heard the sound of my stomach growlin' from down there  
Power there's no one fowler bound ya the tub they found ya  
Face down in the tub I drown you with piles of downers around ya  
Such nostalgia and power such prowess look how you cower  
Jumped out on you now like I was a Jawa from fuckin' star wars  
Jabba the Hut be di bye bye, be di bye bye it's time to die die  
Ought to not even bother to scream it don't even matter  
Amazing when grazing skin with these razor blades he waves at ya  
Not your everyday Damien bath me in holy water  
Melting like Son of Sam so please understand there's no gun in hand  
Where's the thrill in a hunt there's no fun in that here I come with axe  
Once I act like lumberjack when I'm hackin' him up with that  
What was that dial nine-one-one someone's comin' in from the back

Soon as my flow starts  
I compose art like the ghost of Mozart  
Even though they all say that they're real  
I know that most aren't  
Boy you think you're clever don't ya  
Girl you think you're so smart  
Come with me to another side in a world so cold and so dark

Stay wide awake

A world so dark

A world so cold

A world where only some will go

But not return, when will they learn

Where do they go, God only knows

Stay wide awake

(Fades out)
