

Lights Down

Emma Drobná

Mmmmm

Turn the lights down, slowly told me
Turn the lights down ,get here on me
Turn the lights down, you look lovely
Little some crime, riding on me

Pull me closer, feel my body
You'll be my sir, be a lady
Pour me some wine, don't be shady
I know you want me so let's get faded

Turn the lights down
Pull me closer, feel my body
Turn the lights down
I'll be your baby

You are falling asleep here next to me
But I'm still widely awake
And I just wanted to write down this start
In case it would just fade away, you make me feel so safe

Come and knock now, have a first one
Drinking slowly, fancy outfit
Getting started, on the third drink
Feeling better, what do you think

Turn the lights up, you look flawless
Turn the lights down, forget our problems
We are grown-ups, let's be together
You say she's pretty, so go and get her

Turn the lights down
Pull me closer, feel my body
Turn the lights down
I'll be your baby

You are falling asleep here next to me
But I'm still widely awake
And I just wanted to write down this start
In case it would just fade away, you make me feel so safe

When you're so smart and you're warm so I won't let go
In return, I leave, no heart burns
Now I know we're more than exclusive and this is no ordinary
'Till this deal is surreal

Turn the lights down
Turn the lights down

Turn the lights down
Pull me closer, feel my body
Turn the lights down
I'll be your baby

You are falling asleep here next to me
But I'm still widely awake

And I just wanted to write down this start
In case it would just fade away, you make me feel so safe

When you're so smart and you're warm so I won't let go
In return, I leave, no heart burns
Now I know we're more than exclusive and this is no ordinary
'Till this deal is surreal

Turn the lights down
