

Colours

Emma Hewitt

If you had this time again
Would you do it all the same?
I wonder, would I?
Of the promises we made
Is there anything you'd change?
In the re-runs of our lives...

If I could call you for a day just to hear the words you'd say
I would...

All the colours that you bring
All come rushing back again
All the places that we've been this time

All the people that you knew
They'll come running back to you
All the faces that we've seen in this life...

And we never took the time
To see where we were going
We were only passing by...
And we never questioned why
The river keeps on flowing
The beauty of the ride...

If I could call you for a day just to hear the words you'd say
I would...

All the colours that you bring
All come rushing back again
All the places that we've been this time

All the people that you knew
They'll come running back to you
All the faces that we've seen in this life...

The river flows...

All the colours that you bring
Will they ever come again?
All the places that we've been this time

All the people that you knew
They'll be waiting there for you
All the faces that we've seen in this life...

All the colours that you bring
All we ever want to be
All the places that you've dreamed this time

All the people that you knew
They'll come running back to you
All the faces that we've seen in this life...
