

# These Days Are Ours

Emma Hewitt

Wise words, she said  
"We'd better run for it now..."  
A timely escape  
We laugh til we all fall down

Now we're writing on the bathroom walls  
Always sleeping on someone's floor  
Walking round the streets like we rule them all...

Now we're writing on the bathroom walls  
Always sleeping on someone's floor  
They know we kick around here, around here...

These days are OURS...

The right words she said  
"We won't be leaving you now..."  
As time falls away  
We're safe in what we have found...

Now we're writing on the bathroom walls  
Always sleeping on someone's floor  
Walking round the streets like we rule them all...

Somebody's knocking at the bathroom door  
We always stay a little longer  
They know we kick around here, around here...

These days are OURS...

Nobody hears what we say  
Hidden in the games that we play  
Nobody hears what we say...

Nobody hears what we say  
Gettin in the games that we play  
Nobody hears, nobody hears...

These days are OURS...
