

# Shut The Door

Emma Louise

Just one last night in the Cadillac my love  
Said we wouldn't but we did it  
Surrendered to what our bodies want  
You are my favourite child  
Sit so comfortably  
Do I cry like a baby in the cradle when you're rocking over me

And just one last drive through the forest of our love  
And a prophet tried to tell me  
It's better if you can heal yourself  
But they just don't know how much we need each other  
And all the beautiful men that fall around me when we do

But I'm only half here  
Since you've been gone  
I think that I've lost myself  
And why is it so hard  
To breathe when I am  
Only halfway here
