

# Beyond the Great Vast Forest

Emperor

Beyond the great vast forest,  
surrounded by majestic mountains,

dark rivers float like tears of sorrow.  
Frost submerge the holy ring of fire.

They shall rise again, for they are of Him....  
The Dark Lord of eternities.

These are the Devils of Darkness.  
They can not be laid to rest forever.  
Resurrection... They shall haunt again,  
"Phantom der nacht", the creatures of the night.  
Blood is life. Blood is life.

Their art of death is infernal,  
like their life eternal.  
See the castle so proud,  
but yet so grey and cold.

Their art of death is infernal,  
like their life eternal.  
See the castle so proud,  
but yet so grey and cold.

Grey and cold.  
Grey and cold.

The frost submerge. The Moon is on the rise.  
Hear the nocturnal howling of the wolves...

the children of the night. They shall rise again,  
resurrected through our gathering of the ancient and evil.

They shall rise again, for they are of Him....  
The Dark Lord of eternities.

These are the Devils of Darkness.  
They can not be laid to rest forever.  
Resurrection... They shall haunt again,  
"Phantom der nacht", the creatures of the night.  
Blood is life. Blood is life.

In the name of the almighty Emperor they shall rise  
and forever wander the land beyond the great vast forest.
