Let's Kiss Tomorrow Goodbye

Engelbert Humperdinck

Two shadows
So close together
In a moment
I'm in love with you

What is your answer
Tell me, must I go now
I need you so now
Don't send me away

Let's kiss tomorrow goodbye Live for this moment Maybe tomorrow There'll be clouds in the sky

You're in my arms
I know I'll never leave you
So, love me tonight
And let's kiss tomorrow goodbye

These precious hours We spend together We'll find paradise And we shall remember

When time stood still
Here as I hold you
So, love me tonight
And let's kiss tomorrow goodbye

You're in my arms
I know I'll never leave you
So, love me tonight
And let's kiss tomorrow goodbye

So, love me tonight
And let's kiss tomorrow goodbye
Love me tonight
And let's kiss tomorrow goodbye
