

# Take It Easy

Eric Burdon

If you take your time, you'll get what you want  
If you take your time, honey, you'll get just what you want  
So don't hurry me, don't worry me, take it easy baby

If you take it slow, then you'll find I know  
If you take it slow you'll get that feeling more and more  
So don't hurry me, hurry me, worry me, take it easy, baby

I said I won't be like I used to know  
You get my feeling of my pride and joy  
When I'm holdin' you baby, I feel like a baby

But if you take your time, you'll get what you want  
So don't hurry me, hurry me, worry me, take it easy  
Take it easy, honey and don't worry, don't rush me darlin'

I said I won't be like I used to know  
You get my feeling of my pride and joy  
When I'm holdin' you baby, I feel like a baby

But if you take it slow, then you'll find I know  
If you take it slow, you gonna feel it more and more  
So don't hurry me, hurry me, worry me, take it easy, baby
