

Someone New

Eric Saade

You don't wanna hurt me baby
(Someone new)
You don't wanna hurt me baby
(Someone new)

I thought the love we built was strong
It was just a house of cards
Now we watch them fall
Carried away
Oh, carried away by the wind
Walking down the city streets
It's so bizarre
Yesterday was fine
Now you're carried away
Oh, carried away by the wind

You don't wanna hurt me baby
(I know)
You don't wanna hurt me baby
(I know)
Can't believe it's true
You're in love with someone new
You really don't know what to say
(No)
So I'm gonna walk away
(Just know)
Nothing that I can do
One day I'll find someone new
Someone new
Someone new
Someone new
Someone new

The doorway leading to your heart
Has just been closed for good
You slowly turn away
I'm saving the moment
Saving the moment
All the things we want to say
But silence is the game
No need to cast a blame
Just saving the moment
Saving the moment

You don't wanna hurt me baby
(I know)
You don't wanna hurt me baby
(I know)
Can't believe it's true
You're in love with someone new
You really don't know what to say
(No)
So I'm gonna walk away
(Just know)
Nothing that I can do
One day I'll find someone new
Someone new

Someone new
Someone new
Just like you

Now I've gotta find a reason to believe in tomorrow
I gotta find a reason to believe in a world of change
In a world of change

You don't wanna hurt me baby
(I know)
You don't wanna hurt me baby
(I know)
Can't believe it's true
You're in love with someone new
You really don't know what to say
(No)
So I'm gonna walk away
(Just know)
Nothing that I can do
One day I'll find someone new
You don't wanna hurt me baby
(Someone new)
You don't wanna hurt me baby
You don't wanna make me cry
Can't believe it's true
You're in love with someone new
You don't wanna hurt me baby
(Someone new)
You don't wanna hurt me baby
Nothing that I can do
One day I'll find someone new
Someone new
Someone new
Can't believe it's true
You're in love with someone new
