

# Crazy Love

Ernie Halter

We said I love you way to soon  
We didn't care about those rules  
And though we both drank too much wine  
We spoke our hearts, we laughed, we cried.

They say we're crazy  
They think that we've lost our minds  
They're out there on the outside looking in and that's alright  
I know they'll find, crazy love like yours and mine  
Crazy love

We're in our own world half of the time  
It's like hours and strangers they pass us by  
I never believed in a love that could feel so right  
I swear that I've know you all of my life

They say we're crazy  
They think that we've lost our minds  
They're out there on the outside looking in and that's alright  
I know they'll find, crazy love like yours and mine  
Crazy love

Crazy, I don't want to feel it, crazy love  
I can't help but see it, you made me love

They say we're crazy  
They think we've lost our minds  
They're out there on the outside looking in and that's alright  
I know they'll find, crazy love like yours and mine  
Crazy love...
