

Helicopters in the Falling Rain

Escape With Romeo

I've seen pyramids in egypt
silhouettes in sata fe
lovers kiss in paris
reptiles in italy

but then I get this feeling
yes it's always the same
I see the helicopters
in the falling rain

see the helicopters
in the falling rain

cooled down in alaska
my pockets full of ice
walked ob frozen platforms
under the clearest of all skies

then I get that feeling
yes it's always the same
I see the helicopters
in the falling rain

now I'm awaking near the airport
in a second class motel
when I look out of the window
it doesn't feel so well

because I get so homesick
all I want to go is back again
because I see the helicopters
in the falling rain

once again
